CRA support

Intel Edge Platforms **Extended Support**

¹ Standard support only available on Core and Entry launched after Q3'2021, except for these three legacy platforms (11th Gen Intel® Core™ Processors Family (Code named Tiger Lake), 10th Gen Intel® Core™ Processors Family (Code named Comet Lake), and Intel Atom® x6000E Series, Intel® Pentium® and Celeron® N and J Series Processors (Code named Elkhart Lake)).

² Premium Support option available on Core and Entry.

³ For EU CRA-compliant products, security update duration will be specified in the CRA Declaration of Conformity.

⁴ The program will be terminated on 10 December 2027 onward. Purchase remains available until the termination date.

Edge Paid Extended Support Packages: What's Included

Description \ Packages		Premium	Standard**	LTSC	Feature Request
Subscription		Annually	One-Time	One-Time	One-Time
Fee		Per Platform Swimlane (U/H or S or PS) Per OS		Per BKC	Per Platform Swimlane Per Request
Availability for Purchase ¹		Year 8 / Year 9 / Year 10	Year 8 - 10	Year 1 – 15	18 months – Year 5
Supported Platform		SKL, KBL, CFL, CML, WHL, TGL, ADL, RPL, MTL, ARL, APL, EHL, ASL, TWN	CML, TGL, EHL	CML, TGL, EHL, TWL	ADL, ASL, EHL, MTL, RPL
What Services/Access Customer Will Received?					
Feature Change Enablement ²		NO	NO	N/A	YES
Feature Change Support/Updates Post Baseline Support Period		YES Pre-purchase required ^{1,8}	NO	N/A	NO
Windows* IoT Enterprise LTSC	3 rd LTSC BKC Package Access via RDC ²	YES	NO	YES	N/A
	3 rd LTSC IPU Updates Access via RDC	YES	YES	Up to support end	N/A
	Limited 1 st /2 nd LTSC BKC/IPU Updates Access via RDC ³	YES Access Request Required	NO	NO	N/A
Linux* LTS	Bug Fixing	On the latest supported LTS Kernel ⁴	No Offering	No Offering	N/A
	LTS Kernel IPU Access via RDC	On the latest supported LTS Kernel ⁴	No Offering	No Offering	N/A
	Maintaining Non-POR LTS Kernel Version ⁵	YES	NO	N/A	NO
Intel Premier Support (IPS) Access		YES	NO	N/A	N/A
IPU Related Support		Full	Limited ⁶	Supported under baseline security updates support	N/A
BKC/IPU SW Driver Distribution		End-Customer ⁷	End-Customer ⁷	End-Customer ⁷	N/A

¹ Intel does not commit or guarantee product Availability or Technical Support by way of roadmap guidance. Intel reserves the right to change roadmaps or discontinue products, software and software support services through standard EOL/PDN processes. Please contact your Intel account rep for additional information.
^{*} Other names and brands may be claimed as the property of others.
^{**} Program will be terminated on 10 December 2027 onward. Purchase remain available until termination date.

¹ Subject to change. For pre-purchase, availability for purchase will be made available post-feature change enablement.
² When technically feasible. Subject to engineering evaluation.
³ Limited availability and subject to engineering feasibility support, Microsoft* LTSC direction and timeline of support.
⁴ Refers to Intel-supported LTS Kernel at Gitt-Hub (<https://github.com/intel/linux-intel-lts>)
⁵ Feature requests are a separate charge for the Edge-Based Platform.
⁶ Limited IPS support on IPU-related query only. A separate request for IPS access is required.
⁷ End-Customer may distribute to their supply chain partners, where the units are distributed.
⁸ Post baseline purchase subject to new feature request change for engineering feasibility assessment.
